

All's well that ends well - with our Supervisor-Service!

Dear Sirs and Madam,

What can go wrong will go wrong - unless we prevent it permanently.

We will not allow surprises when the planning was designed with care and essential decisions were made - the result must meet your expectations.

We ensure that our products are optimally attuned to each other, that all of our product range has outstanding properties pertaining to the structural physics.

There are, however, some factors we cannot influence - because we are not involved!

With our Supervisor-Service we intend to not leave to coincidence the implementation of high-grade means of design. - From the start we want to competently attend and surely supervise the quality in preparation, in application and in maintenance.

Please benefit from the advantages our qualified Supervisor-Service offers you:

For every project we provide individual patterns as a basis for a solid decision.

- **We are on site and attend the complete application and implementation of the product for you.**
- **We control and assess the subsurfaces, and ensure the proper buildup.**
- **We give you the security that the result complies with your demands.**

- **We provide the safeguard for your special fields of application, like baths and fireplaces.**
- **We organize the ideal processors and support them for you, world-wide!**
- **We collaborate industriously, and supervise and control the staff on the spot.**
- **We see to it that the costs remain within the calculated frame.**
- **We train our processors world-wide in mode and technique of application!**

The attractiveness and quality of our marble-plasters and colorschemes enjoy greatest popularity - because we want it to stay that way we are extending our technical service.

Our supervisors are by your side during the whole of the project.

With us your projects receive the necessary security and quality of execution!

With regards,
Your FRESCOLORI®-team
