

Buildingsurfaces attractive and valuable for ever!

Dear builder, dear architect, dear investor,

Nothing is more constant than change... but also our products - for 3,000 years after all!

Since ancient times lime plaster mixed with marble powder has been used by all great civilizations. Already after decades this kind of lime plaster turns into stone and stands the test of time.

Besides the outstanding properties of the structural physics the attractiveness of the surface appeals indescribably to architects and inhabitants. Our lime-marble-plasters are alluring comparable only to beautiful gems, woods, and leathersurfaces.

Our mural coatings, based on purely natural formulas, refined with valuable components, have long proven themselves in raw building practice. With regards to quality we have exceeded the italian examples. We meet global safeguards in our stride.

Our products are high-grade design agents. We offer august colors and structures, of healthy and environment-friendly construction materials - all our products are non-polluting and emission-free!

With innovative techniques, processing and a myriad of variational options we continually

warrant up-to-date means of projecting surfaces, colors and trends. With us you can acquire classic and modern styles in a large variety of the highest standards of quality. We guarantee our clients a simple procedure including coordination and processing for long-lasting successful results. Our coating-systems ennoble buildings and give them a long-term and above average attraction and value.

For every project we furnish individual patterns as a basis for a solid decision.

Furthermore we offer an attractive service; individual corroboration for your projects, no matter whether you seek offers, processors, safeguards, or special applications for bath or fireplace.

With us your projects achieve the desired quality, attuned to your calculation.

We warrant builders optimal conservation and appreciation of value. Opt for the safest way, come to us, we are there for you!
